Accessories & Options Scooters

Effective JAN 2016

The following is a list of available accessories and options for Leisure-Lift scooters. See specific product description to know what is standard on various models. Not all accessories and options are available on all models.

SEATING OPTIONS

Description	PN	HCPC	Suggested Retail
-------------	----	------	------------------

Admiral's GPS Seat (Gluteal Positioning Seat)

Admiral Style Seat with 8" relief area that guides posterior tissue flow beyond the backrest allowing users to sit against back rest. Lever adjustable back angle. Increased ventilation. Privacy Flap included. Custom sizing available.. Allow 3 to 4 weeks lead time. Back does not fold down.

18 x 18 GPS Charcoal Vinyl	17654		\$370
21 x 21 GPS Charcoal Vinyl	17650		\$550
24 x 21 GPS Charcoal Vinyl	17646		\$600
Custom Size - specify size	17658		\$830

Admiral Fullback Seat

Adjustable position, 50° recline, 20 " high back with lumbar side supports and width adjustable, removable arms, flip-up combined with exceptionally comfortable seat base. Back does not fold down.

18 x 18 FB Charcoal Vinyl	17539		\$370
21 x 21 FB Charcoal Vinyl	17273		\$550
24 x 21 FB Charcoal Vinyl	17694		\$600
Custom Size - specify size	16865		\$830

Com-for-Back™ Seat

Standard seating for all units, contoured high density foam, soft center core for even support . Sturdy back and thigh centering support contour columns for greater comfort. **Back folds down for transport.**

18 x 18 Charcoal Gray Vinyl	17521		N/C
21 x 21 Charcoal Gray Vinyl	17527		\$200
Custom Size - 24x21" and under	17194		\$300
Custom Size	16864		\$400

Gluteal Shelf Seat

82817

\$160

Com-For-Back Style Seat with Offset back tubes allowing posterior tissue to flow through and under the seatback. User's hips are moved back into the seat providing proper back support while maintaining chair center of gravity. Offset tubes provide 8" or 11" of back gap. Seat back 0-20° angle adjustable and folds down for transport. Optional Privacy Flap. Custom Sizes Available. (Allow 3 to 4 week lead on Custom Orders)

Solid Wood Seat Pan

Upholstered seat back with a black plywood bottom that allows use of therapeutic seat cushions. Available for Admiral Full Back, Admiral GPS or Com-for-back seat styles.

Seat width must be the same as back width for all Admiral styles.

Pan 16 " to 20 " width	81656		\$160
Pan 21 " to 24 " width	81657		\$200

MAXUM Seating (Only Avail On CFB SEAT)

82662

K0108

\$200

Seating modification that allows for seat cushion adjustment and a manual backrest angle adjustment

Minimizer Seating (Only Avail On CFB SEAT)

82663

K0108

\$100

Seating modification that helps reduce the overall width of seating systems with out sacrificing the width of the seat cushion . This makes it easier to get through narrow doors.

Accessories & Options Scooters

SEATING OPTIONS

Description	PN	HCPC	Suggested Retail
-------------	----	------	------------------

Power Seat (450lb Cap)

Scooters	17310	E2300	\$1000
-----------------	--------------	--------------	---------------

Allows the rider to raise or lower seat height 5" while seated and stationary, making it easier to transfer and reach high spots without standing. Can not be used with sliding seat on some units.

Not available on Fusion units.

Sliding Seat

16512	\$60
--------------	-------------

Allows 5" of movement - 1 1/2" to front and 3 1/2" to rear of standard seat position. Plus III Jr. allows - 2 1/2" to front and 2 1/2" to rear of standard seat position. **Sliding seat adds 1 vertical inch to each seat position.**

Not available on Fusion units, or Plus III Junior with a power seat.

Head Rest Adjustable

CALL	E0955	\$80
-------------	--------------	-------------

An automotive style adjustable head rest for use on any Com-for-back™ or Admiral seat.

ARMS (Scooter)

16132	\$100
--------------	--------------

Height & Width Adj/Removable

Arm rests can be adjusted up or down and in or out to provide a custom fit for the rider. Also, arm rests can be easily removed and reattached to increase ease of transfer or decrease the overall scooter width.

HD Steel Components (Scooter)

16181	\$150
--------------	--------------

Height & Width Adjustable/Removable

Heavy Duty Arm rests can be adjusted up or down and in or out to provide a custom fit for the rider. Also, arm rests can be easily removed and reattached to increase ease of transfer or decrease the overall scooter or wheelchair width.

Arm Pads - Long

81333	\$15 ea.
--------------	-----------------

14" arm pads provides 6 different mounting positions in 1" increments to provide an additional 3" of support.

Allows for both length and width adjustments.

Throttle & Charger

Throttle - Delta Pull

12724	\$50
--------------	-------------

Allows for finger-tip operation for those riders with limited dexterity. Available only on Delta Tiller.

Throttle - Left Hand

17359	\$50
--------------	-------------

Changes controlling the forward operation of a scooter by pushing the throttle bar with your left thumb instead of your right. Also comes with left hand seat lock. Available only on Delta Tiller.

Thumbrest Extension

11406	\$30
--------------	-------------

Lengthens standard throttle, making it easier to push & pull throttle, especially for riders with limited dexterity. Cannot be used with Delta Tiller. Optional equipment on all models except Eclipse.

Charger On-Board

17370	\$NC
--------------	-------------

Allows for easy and convenient battery charging. Transporting and connecting a separate battery charger is eliminated. Standard equipment on all Espree, Eclipse and Plus III Atlas models. Optional on all models.

Charging Harness Off-Cart

14453	\$60
--------------	-------------

Allows for easy remote charging of batteries when using a standard, separate battery charger. Optional equipment on all scooter models, except those with On-Board Charger.

Accessories & Options Scooters

Effective JAN 2016

MISC

Description	PN	HCPC	Suggested Retail
-------------	----	------	------------------

Active Stabilizer Wheels™

Espree or Plus 3 Premier, Titan, Atlas, Jr	17681		\$499
Espree, Atlas Stretch	17671		\$499

Magnetically centered swivel caster wheels to provide additional side stability. Available for all models

<u>Anti-Tips (side)</u>	16130		\$90
--------------------------------	--------------	--	-------------

Wheels mounted near the front on each side of a 3 wheeled scooter to help provide additional side stability. Standard on all Altas 3 wheeled scooters & available on all other 3 wheeled models.

<u>Back - Up Beeper</u>	10006		\$50
--------------------------------	--------------	--	-------------

A beeper similar to the throttle horn can be installed in the controller to beep when you are backing up.

<u>Basket - Folding</u>	10701		\$50
--------------------------------	--------------	--	-------------

A permanently attached basket that opens to accomodate items for easy transport, and can be folded closed when not needed. Chrome plated all metal construction. Mounted on the seat back.

<u>Cupholder</u>	14635		\$30
-------------------------	--------------	--	-------------

Provides a convenient way to carry cups or water bottles. Optional equipment on all models. Some assembly required.

<u>Deluxe Light Package</u>	17388		\$300
------------------------------------	--------------	--	--------------

Includes headlight, rear "tail-lights", and front & rear directional signals. Provides a near automotive feel, and greatly enhances the rider's visibility and safety in low-light settings. Optional equipment on all scooter models.

<u>Dual Accessory Mount</u>	17172		\$60
------------------------------------	--------------	--	-------------

Holds an Oxygen holder and Walker/Crutch holder. Optional equipment on all scooter models. Special precautions should be taken to determine the effects on ramp incline stability with the installed accessories.

<u>Flag</u>	16640		\$50
--------------------	--------------	--	-------------

Orange safety flag - includes mounting hardware.

Flat-Free Tires

All 3 wheel scooters	16481		\$120/set - 3
All 4 wheel scooters	17604		\$160/set - 4

Tires are filled with foam instead of air, so when punctured, they do not go flat. Highly recommended for outdoor use and in areas where tire punctures are likely.

<u>Front Bag</u>	14632		\$60
-------------------------	--------------	--	-------------

Larger than the Saddle Bag, this bag attaches to the armrest. Perfect for keeping slightly larger items close when a basket is not desired. Optional equipment on all models. Some assembly required.

<u>Oxygen Cylinder Holder - "E" size</u>	16889	E2208	\$150
---	--------------	--------------	--------------

Attaches to seat bracket and allows for safe transportation of most popular portable high-pressure oxygen cylinders. Sturdy enough to secure cylinder plus regulator and conserving device.

<u>Pelvic Strap</u>	10892		\$50
----------------------------	--------------	--	-------------

Adds stability for the rider. Mechanical buckle on all models. Optional equipment on all scooter models. Strap is 60 inches long.

Accessories & Options Scooters

Effective JAN 2016

Description	PN	HCPC	Suggested Retail
<u>Weather Cover Large</u> (std scooter)	14626		\$200
XL (Eclipse and Stretch Frames)	14628		\$240
<u>Pelvic Strap-Extra Long</u>	81652		\$60
Adds stability for the rider. Mechanical buckle on all models. Additional 14" of strap length			
<u>Power Package</u>	17678s		\$200
Extends distance capability of the scooter. Adds larger cover and charger to scooter.			
Reduces the rider weight capacity by 50 pounds. (Currently available in red only.)			
For use with the Plus 3 Atlas, Espree Atlas, Espree Atlas 500, Eclipse Atlas and the Eclipse Atlas 500.			
Requires group 22 batteries(ordered separately)			
<u>Rear-View Mirror</u>	12142		\$40
High-quality mirror that mounts to the end of the standard tiller and provides a great view of the action behind the rider.			
Optional equipment on all models except those with Delta Tiller.			
<u>Clamp on Mirror</u>	17697		\$50
Can be used w/Delta Tiller			
<u>Saddle Bag</u>	14633		\$40
Easily buckles around either armrest. Great for items like wallets, billfolds, glasses, and other small items. Optional equipment on all models. Some assembly required.			
<u>Stretch Frame</u>	17307		\$300
Adds four inches to length of any Plus III or Espree model, including Atlas. Extra length vastly increases leg room for taller riders, or for those who have trouble bending their knees. Comes standard with tiller extension (adds 2.5" to tiller). Not available on Eclipse or Plus III Jr. models.			
<u>Tiller -Delta</u>	12743		\$150
This tiller style offers superb wrist support, delivering enhanced hand, arm and shoulder comfort.			
Standard equipment on Eclipse models. Optional equipment on all other scooter models.			
<u>Tiller Extension</u>	16720		\$50
Adds 2.5" to any tiller. Affords greater comfort for taller riders, and is standard on Stretch Frame models.			
Optional on all other models.			
<u>Walking Cane Holder</u>	10705	E2207	\$16
Attaches to seat back, allowing for easy and secure transportation of a walking cane.			
<u>Walker/Crutch Holder</u>	16938	E2207	\$170
Enables rider to easily transport crutches or a walker while riding any Scooter . Holder can be easily detached and attached when needed. All metal construction. Completely adjustable.

Controller for 6.75 Tilt Ready Base (90 amp 2 actuator)	30412		\$300
Controller Upgrades	Call		Call

Controls

2 function non-integrated controls can operate two powered functions on a power wheelchair without using the joystick controls. Each function control consists of a small plastic box with a rocker switch connected to the batteries and the device you need to operate. **\$100**

Rear Mounted Joystick

81781 E2331 \$100

Unique low cost design that allows the joystick to easily move to a position for the rider to use or an alternate position for an attendant to use. No tools are required for use.

Retractable Joystick Mount

82105 E1028 \$199

Activation allows joystick to be moved to the side and back, facilitating easy forward stationary access. Then the joystick may be returned to a more comfortable driving position.

Attendant Control

82537 \$600

This unit is a module of the Shark Wheelchair control system, intended to allow operation of the drive/or actuator(s) by an attendant. The attendant can adjust the drive speed and return control to the user from the attendant control unit.

Leg Riggings
