

Eclipse Scooter by

PaceSaver

PaceSaver's longest, most stable scooter

Rugged, safe, comfortable, easy to drive

4-Wheels, Front light & basket - standard

SIZES

- Premier** - 350 lb. capacity
- Atlas** - 450 lb. capacity
- Atlas 500** - 500 lb capacity

Eclipse Atlas
with Standard ComForBack Seat,
& Custom Upholstered Arms in Grey Velvet
(Black Molded Arms are Standard)

Eclipse Premier
with optional Admiral Full-Back
seat in Charcoal Vinyl

- **Features:**
- **Soft-Touch Delta tiller-** Finger-tip control makes it easy to drive, even for arthritic patients. Adjustable for shoulder comfort
- **Custom-built units-** Many options available to make scooter the best fit for patient's size, physical needs and skill level. Each scooter is custom-assembled. No "mass-production" of identical scooters.
- **Assortment of seat types-** Made-to-order seat styles and sizes. ComForBack folding highbacked adjustable seat for all-day comfort; Admiral reclining seat (in Full Back or GPS-Gluteal Position Seating option); Rehab seats with Maxum, or Minimizer features - all designed to help produce a more comfortable and ergonomic ride.
- **Powerful motor-** High capacity 4-pole transaxle heavy duty motor runs cooler and has better endurance on inclines and in thick grass. Rear wheel drive.
- **On-board charger-** Trouble-free charging, Charger always available. Easily accessible charger port located on the tiller. (Atlas 500 has off-board charger)

- **Large batteries-** For longer than average range. U1 standard. Group 22 batteries (with larger cover) available for further extended driving range. Offered in red only.
- **Larger wheel diameter-** Four 10" tire diameters for better traction, better ground clearance, best stability. Available in pneumatic or filled flat-free.
- **Digital electronics -** Programmable 110 amp controller for more power; Push-too-fast feature eliminates disengage runaways; Power Boost technology for climbing inclines; Battery Saver for extended range of use. Advanced controller programs for smooth transition through all speeds. Built-in diagnostics system to enable user to troubleshoot minor problems.
- **Mirror-Glaze Finish -** Long-lasting beauty, Color all thru body. Will not chip, peel or fade. Easy care-simply wipe with damp cloth.
- **Easy, no-tool separation -** Effortless transport, Separates into simple, manageable pieces. Fits into most cars, vans, SUVs
- **Assembled in US -** Reliable, less maintenance. FDA regulated. Solid Stability, long-term value. Supports local businesses. 5-yr Limited Warranty.

Premier
350-lb. weight capacity. 4-wheel indoor/outdoor maneuverability and abundant leg room. 10-15 mile range with U1 batteries. 4-Pole 4" motor for durable efficiency and 25% more power. Adjustable and removable arms

PaceSaver
